

Felix Marco Alforque

ERP System Analyst | Web & App Developer

Manila, Philippines · felixmarcoalforque.it.com · linkedin.com/in/felixmarcoalforque · contact@felixmarcoalforque.it.com

PROFILE

ERP System Analyst and hands-on web/app developer who combines business-process understanding with practical software development. Experience spans ERP support and analysis, POS/ERP implementation, ITSM/Freshservice administration, workflow automation, responsive websites, web applications, Progressive Web Apps, ecommerce, dashboards, and custom business systems.

EXPERIENCE

ERP System Analyst

June 2024 – Present

Eagle Cement Corporation

- ERP support and analysis on Ramco ERP.
- Issue and ticket analysis, and system troubleshooting.
- Testing and UAT.
- Business process analysis, and workflow and process analysis.
- ERP-related data and master-data work.
- Business stakeholder coordination.
- System improvement.

IT Support / Enterprise Resource Planning / Implementation Specialist

June 2022 – May 2024

Chase Technologies Corporation · Manila, Philippines

- Led and supported implementation of POS and ERP systems for clients across various industries.
- Ensured solutions aligned with operational workflows and business needs.
- Worked closely with programmers to translate client requirements into technical specifications.
- Provided documentation and ongoing development-cycle support.
- Acted as liaison between clients and development teams, coordinating with client decision-makers and department heads.
- Understood business processes and identified improvement opportunities.
- Assisted with system configuration, testing, training, and deployment.
- Provided technical support and troubleshooting during and after rollout.
- Contributed to system improvement proposals based on field feedback and end-user insights.
